## Sphinx Magic

Sphinx Magic features a stunning tower box package, a multi-level progressive designed to hit often, and the highly recognizable, proven successful theme of Sphinx.

Unique features provide multiple chances to trigger the jackpot for more excitement on the casino floor. Players playing "win two ways" are eligible for the MAGIC JACKPOT, displayed on the top of the tower box. Players may also play "win one way" and still be eligible to win the JACKPOT, displayed below the Magic Jackpot. Both jackpots may be won in the base game or tower box feature.

Sphinx Magic features a high hit frequency for greater player enjoyment and longer time on device. Playing "win two ways" adds to the excitement by further increasing the hit frequency. 3 or more Tut & Coin symbols on an active payline trigger the SPHINX MAGIC FEATURE which takes place in the unique MAGIC BONUS CARDS on the tower box. When the feature is triggered, the cards begin to spin, showing all the possible win amounts. The player pushes the spin button to start the Magic Light, which will stop randomly on one of the 5 card units. The credit amount on the card is awarded, and the player starts the Magic Light to spin a new win amount on that card. The card will spin again to either a Magic Bonus Card or collect card. If a Magic Bonus Card is spun, the game continues and the player may start the Magic Light again to select a new card unit for further wins and the chance to win the jackpot/Magic Jackpot. 5 Magic Bonus Cards trigger the Jackpot (in playing "win one way") or Magic Jackpot (if playing "win two ways"). A collect card ends the feature.

## Atlantica

### **Experience the mystery of the lost world of Atlantis!**

Atlantica will take your players away to a land of lost riches, beautiful mermaids, and magical creatures. The Mermaid guides players in the land of Atlantica, where mysterious symbols such as Neptune and Poseidon captivate players as they win. All wins are paid left to right, and the Mermaid is wild and substitutes for all symbols except Golden Hands. 3 or more Moon symbols pay scatter wins. The OCTOPUS FEATURE adds excitement to Atlantica by “grabbing” nearby symbols for extra wins.

3 or more Golden Hands anywhere on an active payline trigger the Mermaid’s Bonus. The player is taken to the Mermaid’s Hall, which is 4, 5 or 6 chambers away from the treasury. There are 3 doors in the hall, with a hidden amount behind each door. The Mermaid tells the player the 3 win amounts behind the doors (in an arbitrary order). The player chooses one door to reveal a win of credits, a dolphin (doubles the prize), Neptune (takes the player to the treasury), or a collect (ends the feature). Wins are collected and the player moves to the next hall to collect further wins and try to get to the treasury. If the treasury is reached, an additional bonus win is awarded. Occasionally, the Mermaid gives hints (“behind the door is [picture of dolphin]”) to help the player achieve bigger wins.

## Clowning Around

### **Clowning Around brings the fun of the circus to an interactive and entertaining slot!**

Clowning Around features a fun, circus theme with animated characters including the Ringmaster, Clown, Lucy, Lion, and Rabbit. 3 or more scattered Clown symbols trigger the CLOWN BONUS. Each of the Clown symbols jumps to life, and the player may select one (or more if there are multiple triggers) to reveal a bonus win. 3 or more Circus Tent symbols on an active payline trigger the CLOWN COMPETITION BONUS where the player and machine compete to build the tallest clown. “Magic points” add to the excitement of the competition by allowing players to add to the height of their clown with the “mystery grow” or to exchange their clown with the machine’s for a bigger bonus win.

## I.C. Cash

### **Cool cash with a fresh cast of characters!**

I.C. Cash offers everyone's favorite Arctic characters in a fun game with 2 unique bonus events. Enrico Penguini ("Tenor") is wild and substitutes for all symbols except Iceberg. 4 or more scattered Fishing Penguins trigger the FISHING FEATURE, where players may select Fishing Penguins to fish for credits. 3 or more Icebergs on an active payline trigger the SUPER POLE BONUS, where the player is prompted to select his favorite character (ENRICO PENGUINI, JOHN BAMBO (US Navy "Seal"), HASTA LA VISTA ("Hero Bear"), LONG TOOTH SILVER ("Tin Opener" walrus), and "UNBELIEVEBLE CUTE BEAR GIRL") to race. Then the player selects the track (easy, medium, hard), and the choice makes a difference! The easy track has lots of small wins, and the hard track has fewer wins but with higher amounts. The selected racer speeds down the track in hopes of reaching Frosty Island at the end. If the racer lands on an obstacle the credit amount displayed on that obstacle is awarded. If the racer makes it to Frosty Island, extra bonus credits are awarded. The player may choose one racing track for every line that triggered the bonus.

All wins pay left to right, and four-of-a-kind wins also pay right to left. The Joker ghost substitutes for Baby ghost and King ghost. 3 Bonus Eyes symbols anywhere on reels 1, 3 and 5 trigger the GHOST HUNTER BONUS, where the Ghost Hunter (Baby Ghost) competes with the player to catch the most ghosts (the rewards for ghosts collected by the player are doubled). A “collect” ghost ends the feature, and the rewards for the ghosts collected by the player (doubled) and ghosts collected by the Ghost Hunter are combined for the total bonus win. 3 or more Picture symbols on an active payline trigger the SAFE BONUS, where the player may create his own bonus amount by placing the numbers selected by the spinner in the digits below the safe. If the spinner lands on the handle of the safe, the Baby ghost will change or move one of the numbers in the digits below for an even bigger bonus win.

## Dream Maker

### **Dream Maker's endearing characters and fast play will keep you awake!**

Dream Maker features a magical, dreamy theme and an exciting bonus game feature. The Dream Machine symbol substitutes for all symbols except Moon. The Sign of the Zodiac features mystical, animated symbols and a high hit frequency. All wins are paid left to right and right to left, and two or more Horoscope symbols anywhere pay scatter wins. 3 or more consecutive Zodiac symbols on an active payline trigger the ZODIAC OF FORTUNE BONUS, showing 2 concentric rings with credit amounts around them. The player selects one "ring of fortune". Both rings spin, and the corresponding credit amount on the selected "ring of fortune" is the player's Zodiac of Fortune Bonus win. 3 of more Horoscope symbols anywhere trigger the HOROSCOPE BONUS, where players may choose the bonus win type: family & friendship (win in credits), love & emotion (win in free games), or health & fitness (spin as long as you win).
