Operator/Attendant Menus – Main Menu Options	
Option	**Description**
ACCOUNTING	The *Accounting* option allows access to information regarding meters, accounting, security, error accounting, and program version.
DIAGNOSTICS	The *Diagnostics* option allows testing of various machine functions related to sound, video, hopper, bill acceptor, and printer. Some functions may not be available depending upon machine configuration.
PLAY HISTO-	The *Play History* option allows access to information regarding machine history and game history.
EVENT LOGS	The *Event Logs* option provides access to information regarding the events log, the cashout log, and the progressive log.
MODIFY METERS	The *Modify Meters* option allows for clearing of period meters.
SETUP	ATTENDANT MENU – allows sound volume adjustment. OPERATOR MENU – allows setting up of machine and game options.
OUT OF SERVICE	ATTENDANT MENU ONLY – displays "Out of Service" on the video monitor. This renders the machine inoperable without turning the power off.

Operator/Attendant Menus – Accounting Submenus		
Option	**Submenu**	**Description**
ACCOUNTING	MACHINE MASTER ACCOUNTING	Allows viewing of master accounting meter data that may cover the life of the machine.
DIAGNOSTICS	MACHINE PERIOD ACCOUNTING	Allows viewing of meter information since the period meters were last cleared.
PLAY HISTO-	GAME GROUP ACCOUNTING	A summary of game master meters for all games configured for the machine.
EVENT LOGS	GAME ACCOUNTING	Allows viewing of game master and game specific accounting meters.
MODIFY METERS	GAME SET RECALL	Allows viewing of game set information.
SETUP	SECURITY ACCOUNTING	Allows viewing of security accounting meters.
OUT OF SERVICE	ERROR ACCOUNTING	Allows viewing of error accounting meters.
	PROGRAM VERSION INFORMATION	Allows viewing of version information of both machine and peripheral firmware.
	PRINT METERS	Allows printing of terminal and game statistical information, financial information and verification information.
	BILL ACCOUNTING	Allows viewing of all bill accounting meter information.

Operator/Attendant Menus – Diagnostics Submenus		
Option	**Submenu**	**Description**
ACCOUNTING	INPUT AND OUTPUT TESTS	Allows testing of physical devices, such as switches whose I/O values are memory-mapped.
DIAGNOSTICS	SOUND TEST	Permits testing of the sounds programmed for the machine.
PLAY HISTORY	VIDEO TEST	Five submenus permit performance testing of color and tube alignment of the video monitor.
EVENT LOGS	COMM CHANNEL ANALYZER	ACCESS TO OPERATOR ONLY. Allows display of communication parameters and information for the QUART channels.
MODIFY METERS	TOUCH SCREEN CALIBRATION	Permits the calibration and testing of the touchscreen monitor controller.
SETUP	BILL VALIDATOR TEST	Permits testing of the bill validator to make sure it is active and accepting bills of applicable denominations.
OUT OF SERVICE	HOPPER TEST	ACCESS TO OPERATOR ONLY. Permits testing of the hopper to make sure it is functioning properly and reports hopper statistical information.
	PRINTER TEST	ACCESS TO OPERATOR ONLY. Verifies proper printer functioning.
	GAME TESTS	ACCESS TO OPERATOR ONLY. Permits testing of reel strips and pay tables.

Operator/Attendant Menus – Event Logs Submenus		
Option	**Submenu**	**Description**
ACCOUNTING DIAGNOSTICS	ALL EVENTS LOG	This submenu allows viewing of information stored in the machine event log. The submenu has two screens: one to view events and the other to select event categories to view.
PLAY HISTORY EVENT LOGS	CASHOUT LOG	The cashout log screen permits viewing of information stored in the machine cashout log.
MODIFY METERS SETUP	BILL ACCEPTED LOG	The bill accepted log screen permits viewing of information stored in the machine regarding bills accepted by the bill acceptor.
OUT OF SERVICE	PROG RECALL	The *Progressive Recall* function allows viewing of the information stored in the progressive events log.
	LAST 5 HANDPAY RECALL	The *Last 5 Handpay Recall* screen permits viewing of information regarding the last 5 hand-pay transactions.

5
