

Pluto

LED Display Boards

The **Pluto** LED Display Boards are cost effective solutions meeting the need for digital displays in amusement machines.

They use 20mm high LEDs which are set on 0.8" centres and 45mm high LEDs on 1.5" centres. The 20mm boards are end stackable to produce larger displays. LED displays are available in the versions specified below and are built to order.

LED colours other than RED are available to special order and can be mixed within one board if required.

Digit	Digit Height	Dimensions (board)	Connector	Brightness	Part No.
	14.2mm	44 x 30mm	11-Way 0.1" Molex KK	Standard	01-15383-1
	20mm	40 x 53mm	11-Way 0.1" Molex KK	Standard	01-14804-1
	45mm	96 x 58mm	11-Way 0.1" Molex KK	Bright	01-14953-1
	14.2mm	57 x 30mm	11-Way 0.1" Molex KK	Standard	01-15385-1
	20mm	60 x 53mm	11-Way 0.1" Molex KK	Standard	01-14806-1
	45mm	134 x 58mm	11-Way 0.1" Molex KK	Bright	01-14942-1
	14.2mm	70 x 30mm	13-Way 0.1" Molex KK	Standard	01-15387-1
	45mm	172 x 58mm	13-Way 0.1" Molex KK	Bright	01-14944-1
	20mm	100 x 53mm	13-Way 0.1" Molex KK	Standard	01-14604-2
	45mm	210 x 58mm	13-Way 0.1" Molex KK	Bright	01-14946-1
