*Full-house trigger cards vary, depending on the payable.

MULTI-HAND POKER

Super Times Pay Poker™ – Offer players a random 2x to 10x bonus multiplier for the price of an extra credit bet per hand – without taking anything away from the base payable. Players pick from a library of game families, and choose their wager amounts from the denominations you make available. For even greater player appeal, the game offers an operator-selectable maximum wager from six to 36 credits per hand in multiples of six, for higher potential to drive coin-in. *Triple Play*, *Five Play* and *Ten Play* game versions are all together on one game chip for one daily fee.

Anything's WILD POKER™

Anything's Wild Poker™ – With the *Anything's Wild Poker* game, players aren't limited to deuces wild – they get to pick their very own wild cards. Double Down Stud® Poker – After a long and profitable life on the *Player's Edge-Plus* platform, the *Double Down Stud* Poker game comes alive with new features made possible by the *Game King* platform. Game play starts with a four-card hand. The player can complete the hand in normal fashion by drawing a fifth card, or if the first four have potential to form a winning hand – from as little as a pair of 6s or better – the player can double the wager before pressing the Draw button for a chance to win up to 20,000 credits for a royal flush.

Pick-a-Pair Poker™ – With the *Pick-a-Pair Poker* game, players are dealt two cards face-up, plus two piles of three cards each, with the top card of each pile face-up. MULTI-HAND POKER

Five Play Multi-Strike Poker™ – Adding *Five Play* multi-hand action to the *Multi-Strike Poker* game gives players more chances to reach the 8-times multiplier at the top of this dynamic, four-level, skill-based game. Multi-Hand action improves volatility along the way. All of the most popular game families are included. By adding the convenience of *EZ Pay* tickets and *Multi-Denomination* options, your players can choose their personal level of commitment to the game.

Going for Fours™ Poker – A three-of-a-kind win is great, but why settle for it when there's a very good chance that – for the price of an additional wager – a bonus buy-a-pay draw might result in a higher paying four-of-a-kind?! Any three-of-a-kind with max credits bet qualifies for the *Going For Fours* bonus. When the bonus feature is offered and accepted, the player can make an additional wager up to ten times the original bet, depending on payable characteristics.

Hundred Play Draw Poker™ – This perennial favorite is now available as a bar top. With 100 hands, it's *Perfect for Pennies*, but when you enable additional denominations, players will quickly find their own betting comfort level. MULTI-HAND POKER

Big Times Draw Poker™ – For your video poker players who are livin' large, it's high time they go for the "Big Time" with the *Big Times Draw Poker* game. The excitement starts when the game deals up a good hand, but with a low-ranking high card. For example, four aces with a deuce is a great hand. Once players try this game and get a feel for the straightforward strategy, you've got to know they'll love it.

Max Out!™ Poker – Players will love the maximum action of *Max Out Poker*. A maximum bet of eight credits gains access to four hands with the first five credits bet on the first hand. The sixth credit is bet on the second hand, the seventh credit is bet on the third hand and the eighth credit is bet on the fourth hand. The first hand uses a standard poker payable, and the remaining hands use a separate bonus payable.

Five Aces Poker™ – Players love aces, and here's one more reason to love this game – an extra ace! The *Five Aces Poker* game uses one 52-card deck plus one extra ace that can really spice up a hand. The fifth ace means more chances for four aces! The paytables show players just what's at stake when this extra ace shows up, and with a max bet, five aces pays 1200 times the hand bet! The extra ace doesn't count in a flush, a straight flush, or a royal flush, but it's fair game in any other winning hand.

Kenny Rogers® Triple Play/Five Play/Ten Play Poker™ – The *Kenny Rogers® Triple Play/Five Play/Ten Play Poker* game is more than just a great game of chance... it's a Wild West experience featuring all your player's favorite games, original game strategy, plus the compelling charisma of *Kenny Rogers®*. This game knows how to hold 'em!

All-Star Poker™ – While "All Star" sports games are annual events with most teams, the *All-Star Poker* game provides year 'round excitement, featuring *Triple Play/Five Play* and *Ten Play* versions of familiar favorites that are bound to please even your pickiest players. It's some of IGT's best of video poker all rolled into one great playoff game.

Hold 'Em Challenge® Multi-Hand Poker – The *Hold 'Em Challenge Poker* game deals up three 2-card hands from a single 52-card deck. The player holds one 2-card hand and the remaining two hands become "house challengers." The player presses the "draw" button to deal four or nine 5-card hands in the *Four Play* or *Nine Play* game. Each 5-card hand of community cards is dealt from a separate deck. Next, the game takes the player's two held cards – and both "challenger" 2-card hands – and makes the best possible hand with each of the 5-card hands of community cards. The highest hand – challenger or player – takes the pot. This is the perfect game for live poker players waiting for a spot in the next table game.

Golden Dragon™ Slots – Take your players on a trip to the Orient with exciting 3-reel, single payline game play and a vivid top-box bonus.

A New Wave of Excitement in Gaming

Central Determination Systems offer video lottery players greater access to IGT's best titles. The machines, which are connected to a system that actually determines the game's outcome, use only tickets. Players exchange their cash for tickets at kiosks on the floor, and then insert those tickets into the machine to start game play. The player then enrolls for game play and the system draws a result. At the touch of the play button, the video reels spin and the result is displayed on screen.

Only video slots can be used with the system, but what a line-up of games we offer! Look for the following titles on the floor:

- *The Beverly Hillbillies™ Bubblin' Crude*
- *Elvira™ Mistress of the Dark™*
- *Kenny Rogers® The Gambler®*
- *Mystical Mermaid*
- *The Price Is Right™ Featuring Plinko™*
- *Wheel of Fortune® Special Edition™ Triple Action*
- *Monty Python and the Holy Grail™*
- *Star Wars™*
